

# Space Camp® Welcomes the Teachers of the Year to International Space Camp July 17-24, 2015

The U.S. Space & Rocket Center® has partnered with the Council of Chief State School Officers for 24 years to enable the Teachers of the Year to participate in the internationally-known program, Space Academy® for Educators. This professional development program uses the format of astronaut training to convey new ways of teaching science, technology, engineering and mathematics (STEM) concepts to the world's future workforce. The hands-on learning activities are designed to be easily replicated in the classroom.

## THE CURRICULUM

The Teachers of the Year meet and share best practices with master teachers from up to 20 countries in sessions that present current research and technological developments in space-related subjects such as:

- International Space Station
- Living and working in microgravity
- Rocketry
- Propulsion
- Astronomy
- Astrophysics

## MEET AN EDUCATOR/ASTRONAUT

Dottie Metcalf-Lindenburger, a former teacher and Space Camp® alumna who flew as a mission specialist on STS 131 in 2010, will speak. Ms. Metcalf-Lindenburger was selected for the astronaut corps through NASA's Educator Astronaut Project.

## MARK YOUR CALENDAR!

- Arrive in Huntsville, AL:  
Friday, July 17, 2015
- Program begins:  
Saturday morning, July 18, 2015
- Parade of states and nations:  
Saturday, evening—wear a costume and provide brief information on something well-known about your state!
- Graduation:  
Thursday, July 23, 2015
- Departure:  
Friday, July 24, 2015

## REGISTER

The \$949 educator tuition includes:

- Meals
- Lodging

- Flight suit
- Educational materials

Staff will be at Huntsville International Airport to transport educators to the U.S. Space & Rocket Center.

Educators enrolling children ages 9-18 in weeklong camp programs during that week are eligible for a \$100 discount off the regular \$989 student price. Registration in the student programs is subject to availability. We encourage you to register as soon as possible if you are bringing a student. For more information on student programs, visit [spacecamp.com/programguide](http://spacecamp.com/programguide).

To register, visit [spacecamp.com/isc](http://spacecamp.com/isc). If you have questions, call 1-800-637-7223 or email [tiffany.edwards@spacecamp.com](mailto:tiffany.edwards@spacecamp.com).

We hope to see you in Huntsville, Alabama, on July 17, 2015!
